ALEKSANDR KORSHUNOV

Risk & Controls Analyst | Operational Risk | Risk Assurance

4 years 8 months of combined experience

askorshunovv@gmail.com 0466 166 914 LinkedIn GitHub

Melbourne, VIC, Australia | Available to commence from 28 December 2026

PROFESSIONAL PROFILE

I create business value by finding where financial and operational processes fall short–and helping teams build controls that work. My experience spans enterprise-wide risk frameworks, revenue assurance and major incident investigations in critical IT infrastructure, alongside identifying material reporting discrepancies in financial-services audit. I work directly with process owners and senior leaders, turning evidence and risk findings into practical corrective action.

PROFESSIONAL EXPERIENCE

Rostelecom (Data Centres) Moscow, Russia

Data centre and critical IT infrastructure operations

Lead Risk and Internal Control Specialist Sep 2023–Sep 2026 (3 yrs)

ENTERPRISE RISK & INTERNAL CONTROL

- Built an **enterprise-wide risk and internal control framework** covering approximately **90 risks and 250 controls** across financial and operational processes. Supported **operational risk governance**, regulatory reporting and **IPO readiness**.
- Delivered **10+ end-to-end risk-based internal business process reviews**: risk identification, control design and effectiveness testing, reporting and **Corrective Action Plan (CAP)** tracking. Built risk-control matrices, KPIs/KRIs and annual **RCSA**; led risk sessions with top management and process owners; reported findings and CAP status to head office.
- Monitored enterprise risk, quality and information security controls aligned with **ISO 31000, ISO 9001 and ISO/IEC 27000-series** practices. Analysed operational risk indicators, SLA performance and incident data across business and IT processes.
- Introduced a **compliance reporting hotline** and ran risk-awareness workshops with process owners.

SELECTED BUSINESS IMPACT

- **Revenue Assurance:** Found colocation discounts exceeding approved limits by up to **30%** and unauthorised long-term free rack reservations. Triggered reviews of customer contracts, pricing and revenue controls.
- **Cost & Contract Optimisation:** Built an Excel model comparing contracted versus actual power consumption across approximately **4,000 racks**. Identified electricity charges up to **4.5% above contractual terms**; prompted reviews of **42 counterparty agreements**.
- **Operational Analytics:** Built Power BI dashboards tracking **data centre power capacity utilisation** and **sales of colocation capacity**, cutting manual analysis time by approximately **50%**. Dashboard

IT OPERATIONS & OPERATIONAL RESILIENCE

- Investigated major data centre incidents using **ITIL-aligned practices**; assessed **BCP, DRP** and recovery actions affecting service availability and resilience.

Skills: Operational Risk | Control Assessment | Stakeholder Engagement | RCSA | COSO | ISO 31000 | ISO 9001 | ISO/IEC 27000 | ITIL | Power BI | Excel

Ernst & Young (EY Russia) Moscow, Russia

Financial Services Audit

Audit Associate (Staff → Advanced Staff) Oct 2022–Aug 2023 (11 mos)

- Conducted quarterly-review and year-end testing of consolidated and separate IFRS statements for a **major development finance institution** (balance sheet over **US$35B equivalent**, approx., 2023 FX), covering cash, customer and interbank deposits, loans, securities, PPE, intangibles and leases; checked external confirmations and general-ledger evidence.
- Performed sample-based **IFRS 9 ECL** testing of loan portfolios (PD, LGD, EAD). Separately recalculated interest on major customer deposits; applied **DCF** to selected valuations and examined related-party transactions (IAS 24).
- Reperformed **regulatory capital adequacy and risk-weighted asset (RWA)** calculations, **identifying and escalating discrepancies exceeding audit materiality thresholds**.
- Tested control design and operating effectiveness through walkthroughs; reviewed board/committee minutes and **RAS-to-IFRS** adjustments, verified report footing and automated audit tests with Excel, Power Query and VBA.

Skills: External Audit | IFRS 7, 9, 13, 16 | IAS 7, 16, 24, 36, 38 | Basel III | Control testing | Power Query / VBA | KNIME | DCF

Nornickel Moscow, Russia

Financial Specialist Oct 2021–May 2022 (8 mos)

- Reconciled tax and financial data in SAP ERP with source documents for regulatory and management reporting.
- Prepared analytical reports, presentations and ad hoc data reviews for finance stakeholders.

Skills: Financial reconciliation | Regulatory reporting | SAP ERP | Excel
